Features & Business Model

Business Plan

Freemium Business Model: starting with basic tier and a paid tier.

[Vision & Future
functionality](#)

Table of Features We Offer

1	Web Data Extraction
2	User-Friendly Interface
3	Element Selection
4	AI-Enhanced Parsing & Scalability
5	Advanced AI Insights (Premium)
6	Cognitive Search Capabilities (Premium)

Free wide audience & premium version !

Our Vision

Our Vision is to **EXTEND** to integrate awesome features like "Smart Element Recognition" & "AI Assistant" a feature that can be deployed as an "on-screen" tool for people with no tech background or developers to use.
